Educational Qualifications

G. H. Raison College of Engineering & Management Pune

B. Tech, Information Technology Engineering, CGPA: 7.95/10.00 (Fourth Semester)

Pune, India

December 2021 - June 2025

Skills

- **Programming Languages:** C++, Python, JavaScript, Java, Kotlin, Etc.
- **Operating System and Tools:** Unix/Linux, TCP/IP, ReactJS, NodeJS, Angular, Cloud Functions, CSS, Git
- **Databases & Platforms:** MongoDB, Cloud Spanner, Firebase, MySQL

Relevant Courses

Data Structures and Algorithms	Operating Systems and Computer Networks	
Information and Database Systems	Large Applications Practicum	Computer Organization
Information Security and Privacy	Data Science and Machine Learning	Probability and Statistics

Work Experience

Intern Web Development, YHills Edutech Private Limited

Remote Internship

comprehensive knowledge in HTML, CSS, and JavaScript, enabling me to design responsive websites and implement interactive features. Jan 2023 - Feb 2023

- Developed and implemented responsive web pages using **HTML, CSS, and JavaScript** during an immersive 2-month internship; contributed to team by enhancing user experience and optimizing page load speed.
- I have the capability to **craft outstanding and responsible websites**.
- I have successfully **developed 3-4 projects of responsive websites**, showcasing my proficiency in web development.

Intern Muskurahat Foundation

Remote Internship

I specialized in crowdfunding networking marketing, driving successful campaigns to support their noble initiatives.

Mar 2023 - May 2023

- Using social media and online channels, I ran a **solid crowdfunding campaign** for the Muskurahat Foundation, effectively reaching and **engaging a 100-500+ audience**
- Using **data-based techniques** to track campaign performance and optimize outreach (450+) has consistently increased fundraising for the Muskurahat Foundation's philanthropic efforts
- Worked with **14 key influencers** and partner organizations, resulting in an additional **12% increase in donations** during the targeted campaign period.

Projects

Weather Forecast /Website

[Wheather \(rohit-r-bhilare.github.io\)](#)

"Tomorrow's weather, today's code - Join our forecasting project and shape the climate of precision!"

January 2023 - March 2023

- Tech Stack: My weather forecasting project in web development is built using **modern web technologies** such as **HTML, CSS, JavaScript and 2 API's**, ensuring a seamless user experience and intuitive interface.
- **Rapid API Integration:** To ensure the 100% accuracy and **real-time nature of our weather data**, we integrate top-tier weather APIs.
- **Location-Based Forecasting:** Our web development project incorporates **geolocation APIs** to detect users' latitude and longitude, allowing us to provide **location-based weather forecasts**. (18.5204° N, 73.8567° E)
- "Our weather forecasting website boasts an exceptional **99% accuracy**".

E-commerce/Website

E-commerce Portal HTML, CSS, JavaScript, Etc.

[RBStore | E-com website \(rohit-r-bhilare.github.io\)](#)

March 2023 - March 2023

- Built a effective E-commerce website using HTML, CSS, and JavaScript, resulting in a **smooth and interactive user experience**.
- Implemented an advanced **product filtering system**, **reducing the time** spent searching for products by **30%**.
- Incorporated a **user-friendly** shopping cart and checkout process, leading to a **20% increase** in completed purchases.

Note Taking /Website

Self Project, HTML, JavaScript, CSS, Database

[Write Your Note's \(rohit-r-bhilare.github.io\)](#)

May 2023

- Implemented a robust folder/tag categorization system, allowing users to **organize their notes efficiently**. This resulted in a **40%** improvement in note organization.
- This led to a **50% reduction** in the time taken to retrieve important information.

AI-based personal Assistant / Program (In progress)

Python, Pandas, Different Modules

June 2023

- Created an AI-based personal assistant leveraging natural language processing and machine learning algorithms to understand and respond to user commands and queries effectively.
- Continuously improved the personal assistant's capabilities through data analysis and user feedback, resulting in enhanced accuracy and efficiency in fulfilling user requests.

Achievements

- Google Cloud Facilitator Program completed 45 certifications :- [ROHIT BHILARE | Google Cloud Skills Boost](#). November 2022
- 5 Star coder in C++ , C , Python , Etc. :- [Rohit Bhilare - rohitramchandra1 | HackerRank](#). May 2023 - ...
